Introduction 1

Editor’s Introduction to Chapter 1 2

1 Data, Generative Models, and Mechanisms: More on the Principles of Analytical Sociology 4
Gianluca Manzo
1.1 Introduction 4
1.2 The Principles of Analytical Sociology 7
1.3 Clarity (P1) 10
1.4 Description (P2) 12
1.5 Generative Models (P3) 14
1.6 Structural Methodological Individualism (P4a) 17
1.7 Logics of Action (P4b) 21
1.8 Structural Interdependency (P4c) 27
1.9 Agent-Based Modeling (P5) 29
1.10 Back to Data (P6 and P7) 35
1.11 Concluding Remarks 37
1.12 How to Read this Book 40
References 41
Further Reading 52

Part I ACTIONS 53

Foundational Issues 54

Editor’s Introduction to Chapter 2 55

2 Analytical Sociology and Rational-Choice Theory 57
Peter Hedström and Petri Ylikoski
2.1 Rational-Choice Theory 58
2.2 Sociological Rational-Choice Theory 59
CONTENTS

2.3 Analytical Sociology as a Meta-Theory 60
2.4 The Key Ideas of Analytical Sociology 61
  2.4.1 Mechanism-Based Explanation 61
  2.4.2 Realism 62
  2.4.3 Theories of Middle Range 63
  2.4.4 Theory of Action 64
2.5 The Puzzle 64
2.6 The Assumed Special Role of RCT 65
2.7 Conclusion 67
References 69
Further Reading 70

Crime and Voting 71

Editor’s Introduction to Chapter 3 72

3 Why Crime Happens: A Situational Action Theory 74
Per-Olof H. Wikström 75
3.1 Situational Action Theory 75
3.2 Explaining Crime 76
3.3 The Situational Model 77
3.4 The Situational Process 78
  3.4.1 Motivation 79
  3.4.2 Perception of Action Alternatives: The Moral Filter 80
  3.4.3 The Process of Choice: Habits and Deliberation 80
  3.4.4 Controls: Self-Control and Deterrence 82
3.5 The Social Model 82
3.6 Integrating the Social and Situational Models 84
3.7 Testing SAT 85
  3.7.1 The Peterborough Adolescent and Young Adult Development Study 85
  3.7.2 Measuring Crime, Crime Propensity and Criminogenic Exposure 86
  3.7.3 Crime Involvement by Crime Propensity and Criminogenic Exposure 87
  3.7.4 The Impact of Criminogenic Exposure on Crime for Groups with Different Levels of Crime Propensity 88
3.8 Explaining Crime Concentrations (Hot Spots) 90
3.9 Coda 92
References 92
Further Reading 94

Editor’s Introduction to Chapter 4 95

4 Frames, Scripts, and Variable Rationality: An Integrative Theory of Action 97
Clemens Kroneberg 97
4.1 Introduction 97
4.2 The Model of Frame Selection (MFS) 99
  4.2.1 Frames, Scripts, and Actions 99
4.2.2 Dual-processes: Spontaneous vs. Reflected Modes of Selection 100
4.2.3 The Determinants of Variable Rationality 104
4.3 Hypotheses and Previous Applications 106
4.4 An Exemplary Application Using Survey Data: Explaining Voter Participation 108
4.4.1 Theory 108
4.4.2 Data and Measures 112
4.4.3 Results 113
4.5 Applying the MFS to Study Social Dynamics 115
4.5.1 The MFS and the Study of Social Movements and Collective Action 116
4.5.2 Strategic Interaction with Variable Rationality and Framing 117
4.6 Conclusion 118
References 119
Further Reading 123

Historical Violence 124

Editor’s Introduction to Chapter 5 125

5 Analytical Sociology and Quantitative Narrative Analysis: Explaining Lynchings in Georgia (1875–1930) 127
Roberto Franzosi
5.1 Strange Fruits on Southern Trees 127
5.2 Analytical Sociology 128
5.3 Quantitative Narrative Analysis (QNA) 129
5.3.1 Step 1: Story Grammars 130
5.3.2 Step 2: PC-ACE (Program for Computer-Assisted Coding of Events) 132
5.3.3 Step 3: Data Analysis: Actor-Centered vs. Variable-Centered Tools of Analysis 134
5.4 Of Sequences 139
5.5 Of Time and Space 142
5.6 Conclusions 144
Acknowledgments 146
References 146
Further Reading 147

Editor’s Introduction to Chapter 6 149

6 Identity and Opportunity in Early Modern Politics: How Job Vacancies Induced Witch Persecutions in Scotland, 1563–1736 151
Anna Mitschele
6.1 Introduction 151
6.2 Theories about Witches and Research on State Making 153
6.3 Towards a Theory of Persecution 155
6.3.1 Communities 156
6.3.2 Elite Social Structure and Government 157

Part II NETWORKS

Collective Action

Editor’s Introduction to Chapter 9

9 Social Networks and Agent-Based Modelling

Meredith Rolfe

9.1 Social Network Properties

9.2 Network Construction Techniques

9.3 Networks as Pipes: A Basic Demonstration

9.4 Discussion

References

Further Reading

Editor’s Introduction to Chapter 10

10 Online Networks and the Diffusion of Protest

Sandra González-Bailón, Javier Borge-Holthoefer, and Yamir Moreno

10.1 Diffusion Dynamics

10.2 Thresholds and Critical Mass

10.3 Networks and Social Influence

10.4 Conclusion: Digital Data and Analytical Sociology

Homophily and Status Hierarchies 279

Editor’s Introduction to Chapter 11 280
11 Liability to Rupture: Multiple Mechanisms and Subgroup Formation. An Exploratory Theoretical Study 282
Peter Abell

11.1 Introduction 282
11.2 A Formal Framework 283
11.3 Balance Theory 284
11.4 Homophily (H-theory) 287
11.5 Baseline Structures 288
11.6 Developing a Dynamic Mechanism for Balance Theory 289
11.7 Developing a Dynamic Mechanism for H-theory 291
11.8 The Dynamic Interaction of Balance and H-theories 293
11.9 Conclusions 294
Appendix 11.A Micro–Macro Inferences and Scale 294
References 295
Further Reading 296

Editor’s Introduction to Chapter 12 297

12 Network Size and Network Homophily: Same-Sex Friendships in 595 Scandinavian Schools 299
Thomas Grund

12.1 Introduction 299
12.2 Theoretical Considerations 301
12.2.1 Biased Urn Model Without Replacement for Network Formation 301
12.2.2 Role of Group Size for Homophily 305
12.3 Empirical Application: Same-Sex Ties in School Classes 308
12.3.1 Hypotheses 308
12.3.2 Data and Method 309
12.4 Results 310
12.5 Conclusion 312
References 313
Further Reading 314

Editor’s Introduction to Chapter 13 315

13 Status and Participation in Online Task Groups: An Agent-Based Model 317
Simone Gabbiellini

13.1 Introduction 317
13.2 Previous Models 319
13.3 E-state Structuralism: A Very Brief Review with an Add-On 321
13.4 Case Study: Strategies and Discussions in Massively Multi-Player Online Games 324
13.5 Analysis of the Model 326
13.6 Empirical Test/Validation of the Model 331
13.7 Conclusions 336
Labour Market Inequality

Editor’s Introduction to Chapter 14

14 Turbulent Careers: Social Networks, Employer Hiring Preferences, and Job Instability
Christine Fountain and Katherine Stovel
14.1 Introduction
14.2 Background
  14.2.1 The Rise of Turbulence in Individual Employment Trajectories
  14.2.2 Inequality in Insecurity
14.3 Networks
  14.3.1 Network Structure and Inequality in Information
  14.3.2 Our Approach
14.4 Methods
  14.4.1 The Simulation Environment
  14.4.2 Implementation
  14.4.3 Experimental Structure
14.5 Results
14.6 Summary and Conclusions
Technical Appendix 14.A: Detailed Description of jobMatch Simulation Model

Editor’s Introduction to Chapter 15

15 Employer Networks, Priming, and Discrimination in Hiring: An Experiment
Károly Takács, Flaminio Squazzoni, Giangiacomo Bravo, and Marco Castellani
15.1 Introduction
15.2 Method
  15.2.1 Experimental Design
  15.2.2 Manipulations
  15.2.3 Subjects
15.3 Results
  15.3.1 Index Values
  15.3.2 Hierarchical Models
  15.3.3 From Traditional Testing Toward Finding Indicators for Mechanisms
15.4 Discussion
Acknowledgments
